

Digital Biothesiometer

VIBROMETER - VPT

Periodic and accurate measurements help early detection. Early detection helps better prevention. Prevention is better than no cure. 50% of all non-traumatic amputations occur in diabetics who are a high-risk group.

Biothesiometer helps us quantitate the threshold and monitor progressive changes or trends on following up testing.

Features & Specification:

- Full Solid State Design with PC enabled
- Easy Tool to quantify Neuropathy
- Digital 0 to 50 Volts output indicator
- Weighs less than 3 Kg
- Remote key operation on the probe handle
- First Indian model with PC enabled reporting software
- Alarm enabled when max range reached
- Alarm enabled when probe not connected
- Dimension – 30 cm(W) x 12 cm(H) x 26 cm(D) – 3 Kg
- 220 V, AC, 50 Hz mains operation
